MINING, BUSINESS AND STOCKS

BELIEVES RAWHIDE WILL MAKE GOOD

Mining Engineer Declares That He Expects Camp to be Steav Producer.

GOOD BYE TO WILD-CATTER

Rich Deposits Are but Incidental to General Gre Deposition Of the District.

That Rawhide will make good, and that the rich deposits are but incidental, to the general deposition of the district is the opinion of John T. Hawkins a Nevada mining engineer. He asserts that he does not believe that the phenomenal richness of the ores will continue to depth, but that depth will produce permanent producers. Mr. Hawkins recently examined a number of properties in the district. He says:

"I am satisfied that Rawhide is goram satisfied that trawing is going to have some good mines, though from what I gathered on my recent visit, I hardly think that what can honestly be called a mine, exists today, there are undoubtedly very excellent prospects, within a limited zone, covered by Grutt, Balloon and Murray, with an oral excurrence on Hooliered by Grutt, Balloon and Murray hills, with an ore occurrence on Hooligan Regent and the district to the west, I look noon as an entirely different proposition.

"By reason of erosion and atmospheric action, there are a large number of places showing pipes of very high grade ore. These are found where nature has performed the act of concentration of values.

tration of values.

WILL LOSE VALUES.

"The development of the past year shows plainly that these rich deposits are but incidental to the general ore deposition of the district and are, to use a phrase, of the here today and gone tomorrow' order; it would indeed be a phenomenal occurrence, were we to feed that these striking values continfind that these striking values continued with depth. I do not see upon what ground some of the promoters and operators have based their oft repeated

ators have based their oft repeated statement, that greater depth is sure to disclose as good or greater values; a more accurate and conservative statement would be to say that depth may and probably will disclose 'permanent' values, in fleu of the present rich stringers and pockets.

"This permanent value, from present indications, will be of a much lower grade, in the average, in fact a good grade of milling ore, readily amendable to cyaniding, so far as the oxydised zone is concerned; ore that is easily reduced to the desired mesh for treatment. That such bodies of ore exist. I feel well convinced; this means ist, I feel well convinced; this means mining and milling upon a large scale, it means also a steady going but permanent camp, one for which the stock jobber and wild-catter will have pre-

AT PARTING OF WAYS.

Rawhide right now is at the parting of the ways; from its everdone boom period, to that when consistent mining is to have its day. Though this causes a temporary set back, especially commercially, it betokens a bright future, seeing that vast strides are being made in treatment processes, in the mechan-ical appliances for reduction, as well is cheaper power. These things rend investments in mines having developed bedies of milling ores, more and more inviting to the investing public. Bearing these things in mind the outlook for the camp in the near future, is very promising indeed."

DULL DAY FOR STOCKS.

Local Mining Market Shows Little Activity but Fairly Steady Prices.

The desire to hold back and await conditions to right themselves, seems conditions to right themselves, seems to have taken hold of the local stock market. Sales today, although slightly better than yesterday, were far from the standard. Gold producers were fairly steady and there was but little change in the sliver and copper properties. There was no decided activity in any of the stocks.

Bullock sold better today than it has during the week. The strike of a good ore body in the company's ground has caused considerable activity in this stock and prices were bet-

in this stock and prices were bet-

ter.
Columbus Consolidated showed a tendancy to reach better prices, as did East Tintle Gold King, East Tintle Development, and Mountain Lake, Iron Blossom was lower today and Ohio Copper developed an unsteadister.

On the regular and open board 67,566 shares of stock were sold for \$32,607,05. The amount of business transacted during the week was lower than
usual and although close to a million
shares of stock changed hands, the
amount represented was low. During
the past six days \$27,028 shares were
sold at \$405,926.27.
On the curb market there were more
stocks than usual, but no sales were

recorded. Gruth received a bid of 6 to cents and was offered at 7 cents.
Yerington Ironsides was affered at 7 cents and 4 cents was bid. Ely Witch was offered at 20 cents and the bid was 18 cents.

ANOTHER TINTIC COMPANY.

soration for the Tintic Delmar Mining cierk. Provo is the principal place business. The capital stock is \$100. of business. The capital stock is \$100.000 in shares of the par value of 16 cents each based on the valuation of the Deimar Nos. i to 15, mining claims in Tinuc district. The following are the directors and officers: Andrew Madsen, president; W. D. Rawson, vice president; A. T. Madsen, W. F. Glies, and A. L. Booth, Harvey Cluff is secretary and treasurer.

PROVO WANTS EXCHANGE.

Movement Started to Establish Stock Market for Utah County.

(Special to the "News.") Provo, March 27.- There is a mov ment on to organize a mining stock exlaim that 75 per cent of the business one on the Salt Lake exchange comes rom south of the city and that a large hare of this comes from Utah county and also that the headquarters of the Rnight mines, which are the life of the Salt Lake exchange, are here, and in fact that conditions are ideal for a live exchange here. They point to Colorado Springs, Colo., and say that the exchange there beats the Denver exchange.

J. F. Brim, a well known Ely. Nev., mining man, whose home is in Provo, together with Provo brokers and stock dealers, are at the head of the movement. They propose to organize with a capital stock of \$20,000, consisting of 300 seats or sharese at the par value of \$100 each. The money obtained will be put in dividend-paying mining prop-ertles and in this way it is believed the investment will be safe and paying, and that even if the exchange should not prove a success—which is by no means admitted—the stockholders

him in the new Salt Lake exchange. He claims that his project is progress-ing most favorably, and that Salt Lake will soon be the home of two exchanges.

LIKES CHAFTY COUNTRY.

Charles P. Bentzen, who has just come in from Nevada, is very enthusinatic over the prospects in and around Chafey, which is 23 miles from Winnemucca, Humbolt county. He asserts that the town of Chafey has grown rapidly since the revival of the old Dun Glenn camp last. June. He says that the place now shows considerable activity. Mr. Bentzen is interested in some claims which are incorporated as the New Empire Mining company, which is a free milling gold propositition carrying rock worth \$16 to \$20 on the surface.

other places.

Three years ago Amburst was caught in a snow slide at Alta. The mass of snow swept the building in which he and a number of others were down the mountain side. Uninjured Amburst braced himself ngainst the walls and forced his way out. In his night clothes and almost naked he worked madly in the show extracting his fellow prisoners. He saved several before help came. Two never came out alive. The strain and exposure finally claimed Anaburst a victim. Locomotor ataxia set in and caused his death.

ctary and treasurer

means admitted—the stockholders would be sure to come out even.

Mr. Knight was asked his opinion of the movement by the "News" correspondent, but he declined to give any opinion for publication, either for or against the project, excusing himself on the ground that he did not know anything about stock exchanges.

C. W. Hartley, who is promoting the new Salt Lake exchange, was in Provoyesterday on a trip through the county and the Tintic district. He of course does not favor the Provo exchange, but

WEATHER REPORT

It is colder today and the approach of a high barometric area has enabled the local weather offices to predict fair weather for tonight and tomorrow. A trough of low barometric pressure extends from British Columbia southeastward over the plateau region and southern slope to the Gulf of Mexico. Another low pressure, attended by rain and snow, is central over the lake region. Relatively high pressure covers the eastern slope of the Rockles. No precipitation has occurred west of the Mississippi river during the past 24 hours, except over portions of the Dakotas and the southern plateau region.

METEOROLOGICAL REPORT.

PRISONERS RELEASED.

This morning 12 prisoners were re-leased from the city jail as they had completed their sentences. In spite of this big reduction in the chain gang. 30 men were sent out on the road this morning and a few were added by the operations of the court this morning.

FIRE AT RESIDENCE.

A defective flue caused a small fire at the home of Mrs. Ann Galleslar, 143 west Fourth South street at 8:45 this morning, doing dumage to the building to the extent of \$25. The contents were not injured in any way. The apparatus from station No. 2 with Chief Glore and the chemical from headquarters, made a quick run to the blaze and soon had it under control and out. The building was not insured. The property belongs to E. H. Callister.

LATE LUCALS

Irish Conference-Knights of Pythi as hall. 21 west First South, Saturday, April 3, at 8 p. m.

State Supt. A. C. Nelson has returned from inspecting the district schools of

STATE AMATEUR

Tournament at Y. M. C. A. This Evening-Thirty Have Entered Lists-Fast Contests Looked For.

Thirty of the best amateur wrestlers in tournament which takes place at the Y. M. C. A. gym this evening and some of M. C. A. gym this evening and some of the hottest mat contests ever witnessed here are looked for. Every man on the list has worked hard in preparation for the contests and that there will be some surprises goes without saying.

Winners of first place will be given gold medals and those winning second places will receive silver medals and with the trophles goes the title of state amateur champion. The entries in the various weights are as follows.

125-pound class—Harvey, Ray, Miller, Castina and Draft, 185-pound class—Lloyd, Eyans, Wilson and Nettleton, 145-pound class—Richardson, Worthen, Judd, White, Williams, Macke, Childs, Cleary and Adamson.

158-pound class—Mulliner, Antrobus, Harker, Dean and Nichola.

Heavyweight—Burgess, Russel, Harker and Poulton.

DENOUNCES FOOTBALL.

poridge, Mass., March 25.—In his singual report as resident of Har-President Ellet once more deses football as a demoralizing speciand until for college sport, dent Ellet declares too much time roted daily to baseball and football, the latter he says; the latter he says affords a salizing spectacle for the immense is which gather to winess the chief, and still provides on a great scale variety of gambling called bet-VN AND OFFER FOR SALE

STOCKS HAVE MADE GAINS

New York, March Et. Stocks have risen u price during the week with a resulting flect on the tone of speculative confidence, tempered by the knowledge that poressional covering of shorts was making the principal demand. supplies offered to meet this demand had a confirmatory effect on confidence. Reports from the steel trade showed con tinued depression in all departments with the expectation of further cuts in prices and wage reductions to come. There was some betterment in demand for copper but it was not maintained. The outgo of gold was almost without scrious effect on money rates and the easing off of general exchange rates indicated a check o the gold export movement. Stocks showed some fractional gains

Stocks showed some fractional gains in the opening prices owing to a moderate degree of activity. St. Louis & Southwestern rose 1% and Baltimore & Ohio %. An upward movement busan in which only a few of the more important stocks benefited much, the buying being most noteworthy among the minor stocks. Top prices were not held throughout the hour, due to profit-taking in the active section. Pacific Cosst gained & points. American Beet Sugar preferred declined 2%, the common 1. PRODUCE.

EVAPORATED FRUITS.

New York. March 26.—The market or evaporated apples continues very ulet, with prices nominally unchanged, ancy are quoted at 34.6%, choice at 4.87%, prime at 4.66%, and common to other to 4.60%.

nes are steady, with quotations ag from 34,07% for new crop Califruit up to 40-50s, and from 54,00 Oregon's ranging from 40-50s to ts are in light supply, with choice at 94 @ 10, extra choice at 10%

There is no quotable improvement in the local spot market in peaches. Choice are quoted at 64,06%, extra choice at 64,66%; and fancy at 76,84%; Raisins remain dull and easy, with loose muscatel quoted at 34,06%; seedless at 34,06%; and London layers, 1.20,01.20.

CHICAGO. CHICAGO.

Chicago. March 27.—Wheat prices advanced sharply at the opening of the market owing to a brisk demand by a number of commission house, initial quotations showing gains of \$\frac{1}{2}\$ to \$\frac{1}{2}\$. Demand was inspired mainly by the strength of cables, the Liverpool market showing an advance of \$\frac{1}{2}\$ to \$\frac{1}{2}\$. May opened at 1.17% to 1.18% and quickly advanced to 1.18%, while July, after opening at 1.64% to 1.05, sold up to 1.62%.

Light receipts and the bulge in wheat caused strength of corn. Prices at the start were \$\frac{1}{2}\$ lower to \$\frac{1}{2}\$ higher, May being at 66% to 66%. Later May sold at 66%

The strength of wheat and corn srought out considerable demand for strength and opened unchanged to % ligher.

An advance of 5 to 10c. In the price of ive hogs caused slight firmness in prerisions. Prices at the start were unbanged to 2% higher.
Wheat-Feature of trading was the purhase of more than 3,000,000 bushels for
september delivery by a leading bull.
sentiment was bullish all day and the
signest point for May was reached at
1.5%, July sold up to 1.65%. The marred closed strong with May up 1% at
1.35% and July 1160% higher at 1.65%

1.15% and July 1547% higher at 1.05% [25].

Corn—The market was steady at the slight davance during the remainder of the session. At the close May was unhanged at 65%.

Close—Wheat—May. 1.18%; July. 1.05% [35]; Sept. 99%; Dec. 1.00%.

Corn—March. 55%; May. 66%; July. 65%; Sept. 65%; Dec. 57%.

WOOL.

ST. LOUIS. St. Louis, March 27.-Wool, unchanged, cerritory and western mediums, 18223; the mediums, 17@20; the, 11@17. LONDON.

London. March 28.—The second series of the wool auction sales closed today. Bidding throughout the sales was extremely animated, especially on the part of the American and German buvers. Under this competition prices gradually advanced and at the close good merinos and cross-bred were firm and from 7½ to 15 per cent higher than the January sales, while faulty and heavy grades advanced 5 per cent. CITY HELD NO OPTION

John T. Donnellan, who has been credited with having rescinded an option ven to the city for the transfer o property wanted by the municipality for a market place, denies that he ever entered into such a bargain. With ref-erence to the allegation, Mr. Donnellan

sald today:
"The city holds no option from me for the ground referred to or any other property. I have not been offered \$12.000 or any other sum over and above the price the city was willing to pay for the gound. I never refused to convey to the city the property referred to, or the city the property referred to, or the city the property referred to.

any other, giving as a reason that my wife refused to sign the deed.

"No representative of the city has seen me in reference to my property for several weeks. I understand that some time ago an agent had negotiations with the city, which I refused to ratify," J. R. WHITNEY & SONS.
